

Introductory remarks

Signed Letter of Intent for potential sale of Business segment assets

Broader strategic review initiated, including all business areas

Interest from multiple parties, go-shop period ongoing

Market will be updated as the process progresses

Q1 highlights

Revenues of USD 9.2 million with declining Consumer revenue and growth in the Business and Pro segments

71,000 consumer devices shipped with continued strong demand for radon products in US and Canada

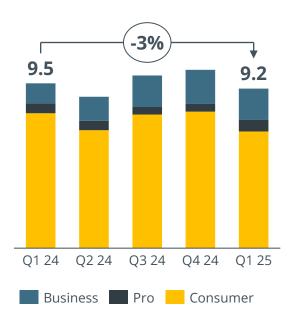

Gross margin improving following decision to drive improved unit economics

Collaboration with Harvard T.H. Chan on IAQ effect of January's LA wildfires, showcasing the potential of our vast volume of hard-to-obtain IAQ data points

Q1 highlights continued

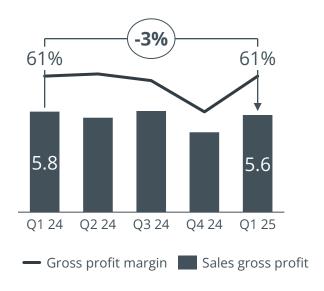

Group revenues (USD M)

Q1 revenues USD 9.2M

declining 3 percent versus Q1 24, with growth in Business and Pro not offsetting the decline in the Consumer segment.

Gross profit (USD M)

Q1 gross profit

USD 5.6M

down 3 percent from USD 5.8 million in Q1 24, with gross profit margins up from 45% in Q4 24 and stable compared to Q1 24.

Annual recurring revenues (USD M)

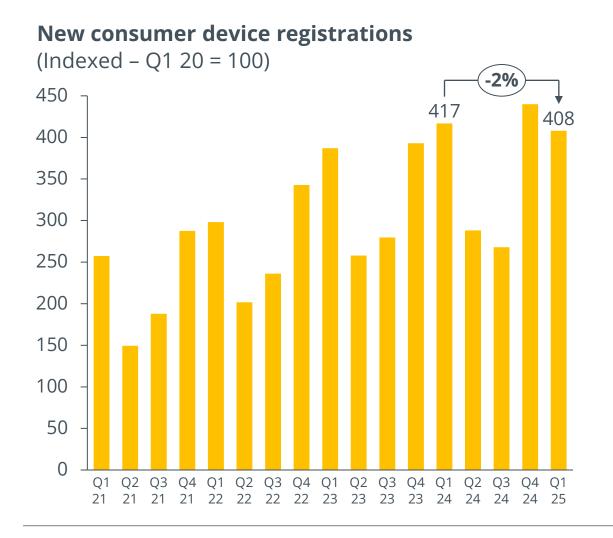

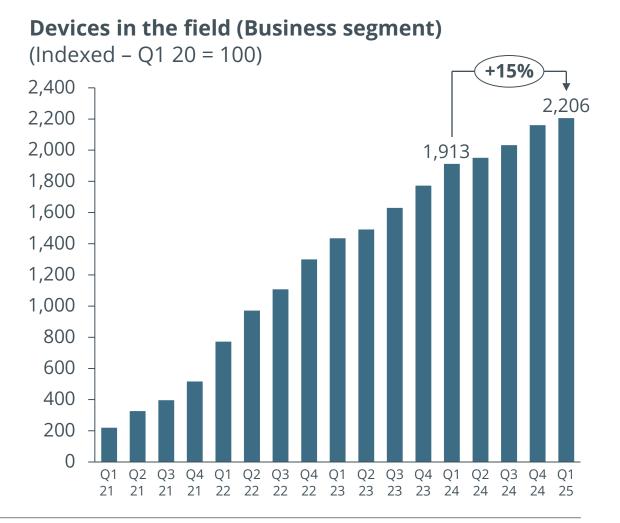

Q4 total ARR

USD 4.4M

up 4 percent from USD 4.2 million in Q1 24, mainly driven by the Business segment.

Getting Airthings products into the hands of our customers

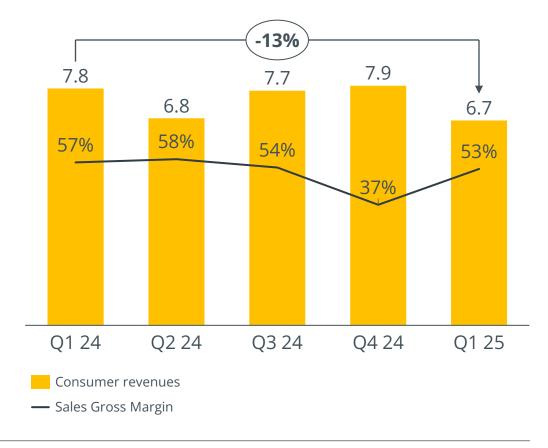

Margin recovery and continued demand for safety-related products

- Continued demand for safety-related products driving majority of revenues
- Airthings shipped around consumer 71,000 devices in Q1 25, stable versus Q1 24
- Lower average realized prices due to radon action campaign in January and sales skewed towards Corentium Home
- Successfully negotiated and renegotiated key contracts with the aim of improving long-term unit economics and gross margin
- Renegotiations impacted sell-in in certain weeks while sell-through trends in North America slowed towards the end of the quarter

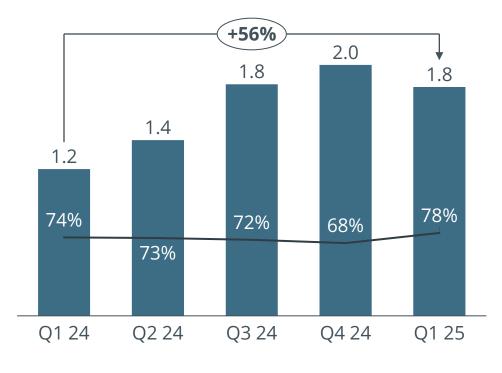

Consumer revenues and gross margin (USD M)

Healthy growth in the Business segment

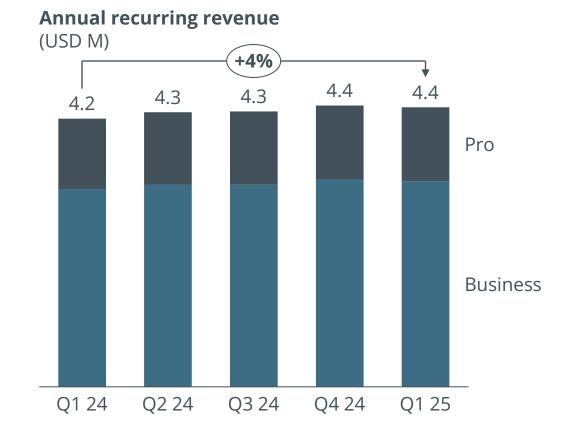

- Sales in the Business segment were USD 1.8 million, up 56 percent from Q1 24
- High share of subscription revenues supports gross margin of 78 percent
- Steady deal flow and low churn rates with number of devices in the field increased 15 percent year-on-year

Business revenues and gross margin (USD M)

Steady growth in recurring revenues

- ARR from the Business segment +4 percent YoY to USD 3.3 million
- Supported by large installations at major enterprise customer
- Steady development in Pro

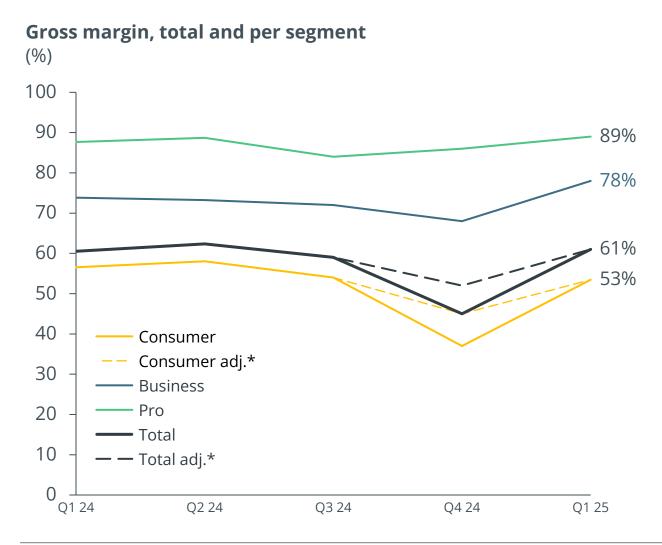

Stable gross margin while revenues declined 3 percent

Opex affected by marketing expenses linked to retail launch

Opex development

- Lower personnel costs following reorganization in 2024; 103 FTEs end of Q1 25
- Reduced office costs and strict cost control
- Higher marketing costs related to Target launch in the United States and promotional events in Canada
- Less capitalization of R&D impacting external services

Financials:

- Goodwill and deferred tax assets impaired in Q4 24
- USD 5.4 million in cash

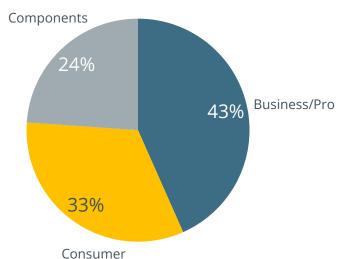

13 AIRTHINGS

Note: numbers may not sum due to rounding

Continued focus on inventory management needed

Inventory distribution

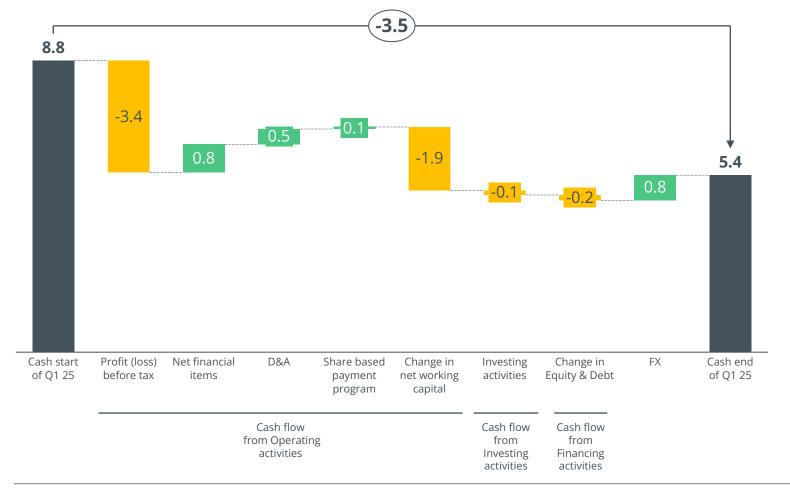

Highlights

- Total inventories reduced to **USD 11.3m**, up **USD 0.8m** from previous quarter
- Within 2024 target of reducing inventory to 250 days
- Started manufacturing of Corentium Home 2, our next generation radon detector

Cash flow statement

Q1 25 cash bridge

(USD M)

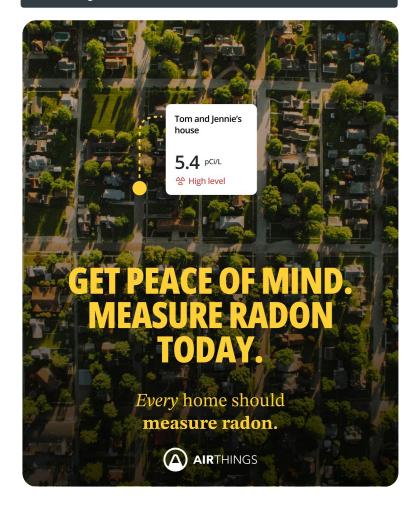

- Negative cash flow from operating activities of USD 3.9m, driven by operational losses and increase in working capital
- Cash flow from investment activities of USD -0.1m
- Cash flow from financing activities of USD -0.2m
- Cash balance of USD 5.4m
- Revolving credit facility of USD 5.0m (valid until 31 December 2025)

AIRTHINGS

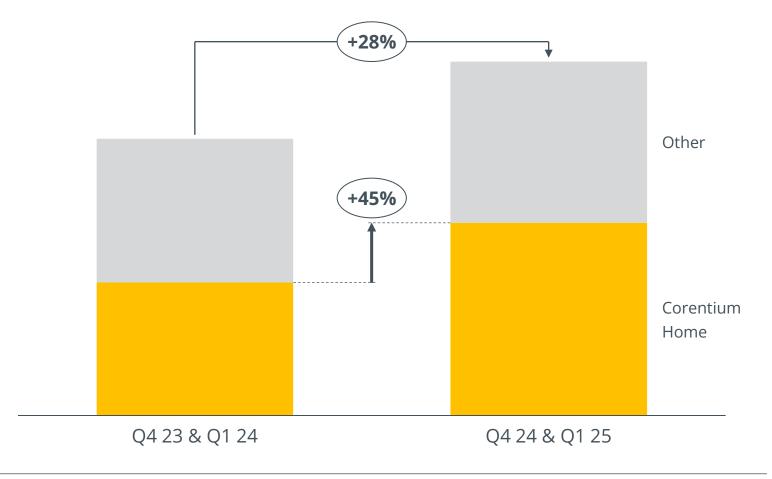

Continued market validation of our *market-leading radon detector*

Every home should measure radon

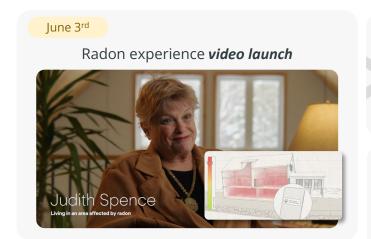

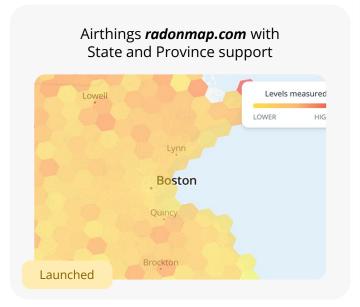

... and more do, as highlighted by radon season sell-through

Consumer sell-through, USA and Canada (# units)

Upcoming *product launches*

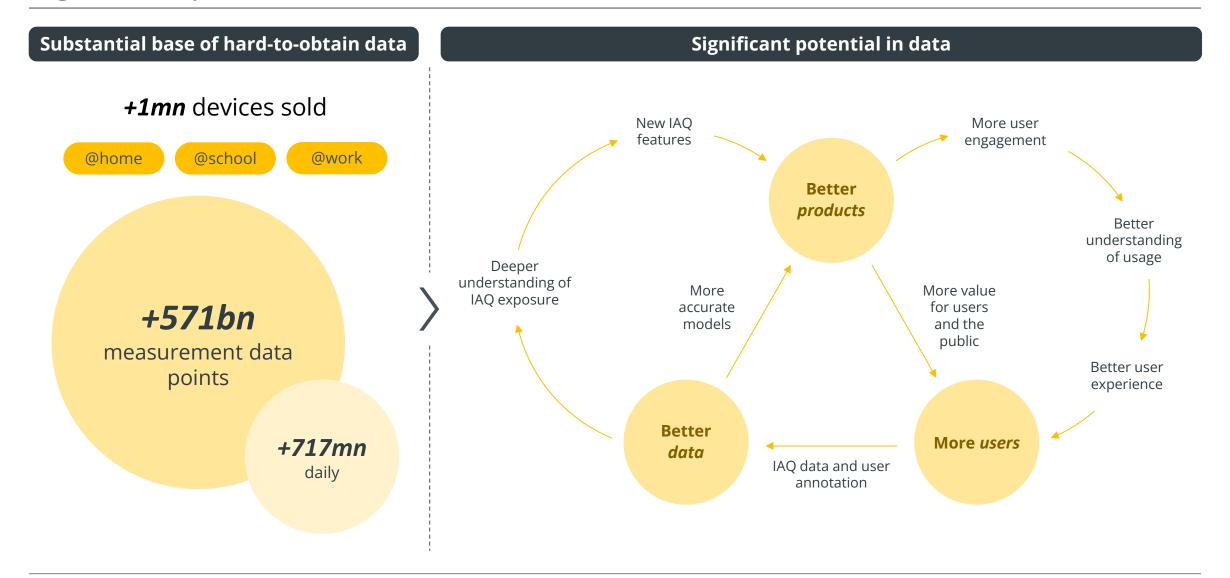

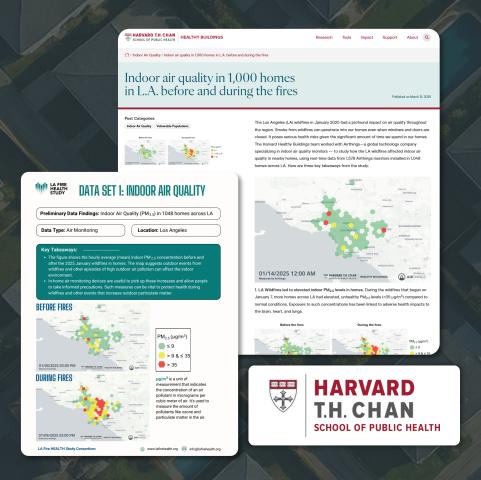

Significant potential in the use of *proprietary data and insights*

Empowering people to breathe better through data insight

The **Harvard Healthy Buildings** team collaborated with Airthings to study how the LA wildfires affected indoor air quality in nearby homes, using real-time data from 1,578 Airthings monitors installed in 1,048 homes.

Takeaways from the study

- Wildfire smoke entering homes

 During the wildfires that began on January 7, more homes across LA had elevated, unhealthy PM2.5 levels (>35 μ/m3) compared to normal conditions.
- Far-reaching smoke

 LA wildfires impacted indoor air quality in homes more than 2 miles from the burn area. In these homes, there are clear increases in indoor PM2.5 levels after the onset of wildfires.
- Monitoring IAQ is vital
 Real-time air monitors are useful for wildfire response.
 Monitoring indoor air quality and taking informed precautions are vital to protect health during wildfire events.

Growth in *IAQ Safety* triggering interest in other IAQ product segments

**** Impressive product with deep insights - checking it daily like my Fitbit but for my home's health

I saw radon as a primary sensor and know I live in what is considered a high radon area. I thought setup was quick and easy considering I am usually pretty slow at getting things that are connected setup.

I did not realize how stuffy my house was until I saw how bad my carbon dioxide levels were in my home. I am determining if it is a too many people in one room issue or an air circulation issue with my vents.

I really like the option to set different focuses in the app for productivity, headaches, radon, etc. I am learning more and more about different things in the air in my home and steps I can take to improve my air.

**** Multiple sensors with good user interface

My primary motivation for purchase was to measure indoor particulate pollution during the wildfires. I wanted a more quantitative measure than the colored indicators on our air purifiers.

However, I have since become more interested in the carbon dioxide (CO2) and VOC levels. The inclusion of Radon, temperature, humidity, and atmospheric pressure sensors is a plus.

Continued uncertainty expected

Summary

Outlook

Revenues for Q1 25 within guided range

Decline in Consumer revenues mainly driven by more cautious purchasing

Improved gross margins compared to Q4 24

- Continued uncertainty related to the effects of US tariffs and a weaker sentiment
- Accelerating efforts to diversify supply chains and explore pricing strategies to mitigate risk and protect our competitive strengths
- Ongoing strategic process will contribute to strengthening our financial position over time and help lay the foundation for longterm growth

Guidance

Q2 2025

Revenues (USD M)

7.0 - 9.0
