

Airthings introduces 5-year extended warranty on all air quality monitors for consumers at IFA 2022

Airthings backs up the quality of their products, its focus on sustainability and the importance of long-term monitoring by being the first company to introduce a free 5-year extended warranty for their indoor air quality monitors.

OSLO, NORWAY & BERLIN, GERMANY - (September 2, 2022) - Airthings, the global leader in indoor air quality monitoring for homes and businesses, today launched a worldwide extended warranty program at IFA 2022 in Berlin. All Airthings consumer devices purchased after August 1st, 2022 will be eligible to register for the extended warranty on the Airthings website within 30 days of purchase. The product registration is voluntary and free of charge, and has an option to save all information for easy redemption. Attendees visiting the IFA conference can get more information first-hand in Hall 5.2A at Booth #124a from September 2nd-6th.

Airthings stands behind the quality of its products and the importance of long-term monitoring to gain peace of mind by knowing what's in the air you breathe. The company is firmly committed to sustainable product innovation and is continuously improving its products to align with this value. Oyvind Birkenes, Airthings' CEO, said: "We believe so much in the quality and accuracy of our products, and the importance of long-term monitoring, that we are willing to guarantee them for 5 years. By introducing the extended warranty program we hope our customers gain peace of mind as we ensure the longevity of our monitors."

By introducing the new 5-year extended warranty, Airthings underlines that reliability is a core component of Airthings product design, keeping you informed of what's in your air, so you and your family can breathe better and live better for years to come. The registration is optional and choosing not to register for the extended warranty does not affect Airthings' standard product warranty.

To learn more about the extended warranty program for consumers, visit the Airthings website at airthings.com or drop by at IFA in Hall 5.2A at Booth #124a in Berlin, Germany. To register your device go directly to airthings.com/register-my-device.

About Airthings

Airthings is a global technology company and producer of award-winning radon and indoor air quality monitors for homeowners, businesses, and professionals. Founded in 2008, Airthings is on a mission to ensure that people around the world recognize the impact of indoor air quality and take control of their health through simple, affordable, and accurate technology solutions while optimizing energy consumption in buildings. Airthings' products have made radon detection and indoor air quality monitoring easy to deploy, accurate, and user-friendly, and have received several accolades including the TIME Best Inventions Award and CES Innovation Award Honors, as well as being positioned as global leader in the market by Frost & Sullivan, a

leading global analyst firm. Headquartered in the heart of Oslo, Norway, and with offices in the US and Sweden the company has over 140 employees from more than 30 nationalities—and counting. To see the full range of Airthings indoor air quality monitors and radon detectors or to learn more about the importance of continuous air quality monitoring, please visit airthings.com.
